Experiencia

Data Scientist

Boston University

nov. de 2022 - ene. de 2023 · 3 meses

As a data scientist working in the Keck Laboratory of Network Physiology at the University of Boston, my primary responsibility was analyze large and complex datasets related to physiological networks. I used my expertise in statistics, machine learning, and data visualization to extract meaningful insights from the data and contribute to the research efforts of the laboratory.

Data Scientist

Comercia Global Payments

ago. de 2021 - feb. de 2022 · 7 meses

As a data scientist at Caixabank, I specialize in using data analysis and statistical techniques to detect and prevent fraud within the organization. Utilizing tools such as Python, R, SQL, and Excel. I am able to identify patterns and anomalies in large sets of data, and use this information to improve and optimize Caixabank's fraud detection systems. My work helps ensure the security and integrity of the bank's financial transactions, while also protecting the customers from fraud.

Ajuntament de l'Hospitalet

3 años

Data Analyst

ene. de 2020 - ene. de 2021 · 1 año 1 mes

Data Analyst with a strong background in data visualization, analysis and reporting. Proficient in Python, Power BI, and CartoDB. Successfully utilized data to make strategic reports for the city of L'Hospitalet de Llobregat, including creating a specific website to improve access to relevant information for social entities. Proven ability to propose new functionalities and provide training and advice on new technologies. Strong collaborator, dedicated to making data accessible and useful for decision-making.

I've worked in the team who made the business plans send to the Spanish Ministry of Energy, Tourism and Digital Agenda for the National Plan for Smart Territories of the Digital Agenda for Spain, Smart Building Pilots. Obtaining a subsidy of 2.4 million euros so that the City Council of Hospitalet could develop the project.
